### **Hot & Cold Currents: The Emergence of Wen Bing**

The Wen Bing and Shang Han Lun interface and how a clearer understanding of the historical foundations makes us more effective in clinical practice.

Exploring the Wen Bing and Shang Han Lun interface and how a clearer understanding of the historical foundations of our practice help us to be better practitioners. Wen Bing and Shang Han Lun are viewed as either complementary or agonistic. Advocates of cold damage therapeutics often think of warm pathogen disorders as already being contained within the scope of the Shang Han Lun. Based on research and Volker's own clinical practice he offers a different reading of this controversy: How Wen Bing therapeutics emerged out of new ways of reading the Shang Han Lun between the late 15th and mid-18th centuries. Physicians began to conceive of the body in a quite different way, and changed their clinical practice. It will also change yours! Part of this presentation is open access.

### **Nan Jing Acupuncture: A Contemporary Personal Interpretation**

A popular & practice-oriented seminar for acupuncturists. Packed with highly practical information and diagnostic tools. A 'must do' for the discerning practitioner.

The Nanjing is widely considered to be one of the key texts for acupuncture practice. In the West, the reception of Nanjing acupuncture practices has been mediated mainly via Japan through Meridian Therapy or Toyohari. For over 25 years Volker has developed his own way of working with and from the Nanjing. His readings and clinical experiences have resulted in a style that both converges on and diverges from Japanese interpretations; eg. focus on eliminating excess rather than treating deficiency and focus on the transmission of pathogenic qi between different organ systems. Includes reading of key passages from the Nanjing, case studies, hands-on diagnostic tools and applications for immediate usefulness in clinic.

Be inspired, challenged, deepen your clinical perspective & gain practical information.

Prof Volker Scheid PhD FRCHM MBAC is one of our foremost teachers and practitioners. He is a visiting professor (Zhejiang University of TCM, Hangzhou), medical anthropologist, Professor of East Asian Medicines at the University of Westminster, and a practitioner for almost 30 years. Those who attended his seminars in Australia were blown away by his thought provoking style and depth of knowledge. He is the author of the acclaimed Chinese Medicine in Contemporary China and Currents of Tradition in Chinese Medicine, and co-author of Chinese Herbal Medicine: Formulas & Strategies (2nd edition). His interests have moved towards how East Asian medical traditions can be integrated into contemporary health care without losing their independence and effectiveness. Volker lectures in Europe, UK, the USA and Australia. His recent seminars in 2014 received high acclaim and are now offered as webinars. Volker's incredible wealth & depth of knowledge is most inspiring!
